

NEWSLETTER 01 / 2022

Dear Member,

Thank you for reading the Newsletter 1/2022. Any comments and suggestions to info@saphw.ch are welcome.
Kind regards, your SAPhS

A Word from the Co-Presidents

Dear Members of the Academy,
Dear Colleagues,

After the General Assembly 2022 we took over the co-presidency of the SAPhS together as successors to Gerrit Borchard. We understand our work as a team with the two vice-presidents, the general secretary, and the other members of the board. We bring with us years of experience from other associations, networks, university teaching and research. In addition to the Swiss Pharma Science Day, the main objectives of the SAPhS in 2022 include expert networks in academic education and training as well as the interaction with other organised groups in pharmacy. We look forward to exchanging ideas with you, especially live encounters at the SPhSD 2022.

With best wishes for a relaxing summer break and collegial greetings.

Verena Schröder PhD, Prof
Ursula von Mandach PhD, Prof

News

SAPhS Senate's Board 2022

New members are:

Prof. Dr. Matthias Hamburger (assessor, co-organizer SPhSD)
Dhaval Srivastava (assessor, president of asep).

University Faculty

University of Basel

[Prof. Dr. Matthias Hamburger](#), retired.

He served as Professor of Pharmaceutical Biology from 2004 to 2021, and from 2009 to 2012 as Head of the Department of Pharmaceutical Sciences. His research interest ranged from natural product-based drug discovery to evidence-based phytomedicine.

A [farewell symposium](#) will be held at the Pharmacenter of the University of Basel on September 16, 2022.

[Prof. Dr. Robin Teufel](#), successor of Prof. Matthias Hamburger.

Pharmaziemuseum Universität Basel

2 December 2022 to 5 February 2023

[«Medikamentenwerbung der 70er und 80er Jahre»](#)

The focus is on a special collection and a painterly exploration of the Basel artist Raphael Widmer. For the first time, the special exhibition provides an insight into the diversity of these contemporary documents.

Science

Papers of the month

Sharma AM, Birkett R, Lin ET, Ernst LM, Grobman WA, Swaminathan S, Abdala-Valencia H, Misharin AV, Bartom ET, Mestan KK. Placental dysfunction influences fetal monocyte subpopulation gene expression in preterm birth. JCI Insight. 2022 Jun 8;7(11):e155482.

Hooijman MF, Martinez-De la Torre A, Weiler S, Burden AM. Opioid sales and opioid-related poisonings in Switzerland: A descriptive population-based time-series analysis. The Lancet Regional Health – Europe. 2022: June 27. <https://doi.org/10.1016/j.lanepe.2022.100437>

Education

APhWS «Ausbildung Pharmazeutische Wissenschaften Schweiz, APhWS» (Formation Sciences Pharmaceutiques Suisse, FSPhS; Education Pharmaceutical Sciences Switzerland, EPhSS)

- APhWS is a committee managed by SAPHs. All Swiss Schools of Pharmacy, as well as pharmaSuisse are represented. APhWS is chaired by Dr. Christine Moll (vice-president SAPHs).
- APhWS is working on several documents in preparation for the third version of the Swiss learning objectives catalog for studies in pharmacy released by the Swiss Federal Office of Public Health. The learning objectives mentioned in the catalog will be adapted in accordance with the evolution of the pharmacist's profession and responsibilities as an actor in public health.
- The following documents are currently in progress:
Document 1: Matrix inventory of learning content on NCD in basic training at all Swiss Schools of Pharmacy.
Document 2: Consultation situations acute and/or chronic. The B+ list has also been added there. Consensus among sites is very important here.
Document 3: Exchange on teaching «Pharmaceutical and Clinical Skills» in the Master's phase of the Pharmacy curriculum.
- Regular meetings are held.
- APhWS structure and membership allows for the inventarisation of topics currently taught at the different sites, which will be followed by an alignment and harmonization across Switzerland.

Media

Video: «The SAPHs 2022 in 6 Minutes»

A 6-min video with answers from prominent SAPHW members to 3 questions and more:

- What are the arguments in favour of studying pharmaceutical sciences at your university?
- What role can or should the SAPHW play in shaping the curriculum now and in the future?
- What are the core competences and tasks of the SAPHW?
